

Al-Azhar 7 Solo Baru High School Short Study Tour to Japan

Our company had a good start in the beginning of this year for inbound customers. We had customers from one of the private high school in Indonesia that visit Japan for the first time as their study tour destination. The group came from Al-Azhar 7 Solo Baru Senior High School located in Solo city of Central Java.

The tour conducted from the 25th ~ 30th of January this year with the total of 27 participants including two teachers and two student's parents and one representative from the school foundation.

During the tour, we managed to visit the historical Kyoto city, Shirakawa traditional village which well known as one of the world heritage site, Denpa gakuen Japanese school, ski experience, cultural exchange with two local senior high schools in Nagoya city (Nagoya University affiliated senior high school and Chukyo University affiliated senior high school) and Tokyo Disneyland that cheered them up on the last day of the trip. We are so happy to hear that they enjoyed the trip so much and look forward to come to Japan again next time (^_^)
